

ABC Support Towers Flex Installation Instructions

First of all, congratulations and have fun with the purchase of your ABC Support Tower!

You have just become the owner of a luxury Support Tower which can be used in combination with the Atman Buddhi Concentration (ABC) instruments. There are various set-ups possible with combinations of the ABC pyramids and ABC spheres which all have a high energetic effect. For the various possibilities, please refer to your ABC contact person.

Scope of delivery

Depending on the version, the ABC Support Tower is composed of a number of components. Below you will find an overview of the components as they are supplied for the different variants.

The numbers in the table below indicate the number of components per type, the red numbers refer to the components in the image below the table. The installation instruction also refers to these red numbers.

	Chrome stand with base	Chrome stand medium	Chrome stand long	Chrome stand extra long	End cap with screw socket	Screw sleeve loose	Plateau
See picture number:	(1)	(2)	(3)	(4)	(5)	(6)	(7)
Description							
ABC Support Tower Flex	4		4	4	4	8	3
ABC Support Tower Flex Xtreme	4		12	4	4	16	5
ABC Support Tower Flex Xtreme Max	4		4	12	4	16	5

ABC Support Tower Flex Lotus	4x chrome stand nr. 1, 3, 4, 2, 4	(stand with base, long, extra long, medium, extra long)

3. Installation Instruction

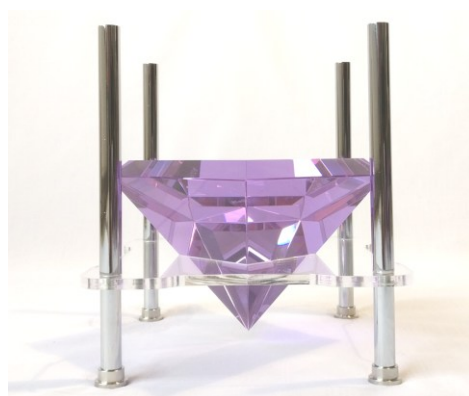

Step 1:

Remove the foil from both sides of the plateaus (7). Then place the plateaus on a soft surface so that they cannot be damaged.

Step 2:

Screw four screw sleeves loose (6) into the screw side of the chrome stand with base (1) a few turns until about 1.5cm of thread remains.

Step 3/4:

- Take a plateau (7), insert the screw sleeve side of the chrome stands with base from step 2 piece by piece through the holes in the corners and, depending on the model, screw on the appropriate chrome stands for the next level. (2. Installation order of chrome stands) Screw the chrome stands tightly!
- Next, place the first ABC instrument.

Step 5/6/7/8:

- Turn four screw sleeves loose (6) again a few turns into the top of the chrome stands from the previous step until about 1.5cm of thread remains,
- Place the next plateau (7) on top of the setup so that the screw sleeves protrude through the holes,
- Depending on the model, screw on the appropriate pedestals for the next level. (2. Installation order of pedestals) Screw the chrome stands tightly!
- Then place the next ABC instrument.

Repeat these steps until there are no chrome stands left.

Step 9:

- Place the last plateau (7) on top of the setup,
- Insert the remaining four end caps with screw sleeve (5) through the holes in the corners of the plateau and screw them into the top of the chrome stands from step 8. Screw the chrome stands tightly!
- Take a cloth and wipe any fingerprints from the chrome stands and the plateaus,
- then place the top ABC instrument.

The installation was successful, have fun with your ABC Support Tower!

Important:

All Support Towers, due to their height and total weight, require a stable surface and free setup. Ensure that the setup cannot be accidentally knocked over to prevent personal injury or damage otherwise.

Images in this instruction are examples only and will vary from your Support Tower depending on type as well as selected ABC instruments.
