

# ABC Support Tower Mini Installation Instructions

First of all, congratulations and have fun with the purchase of your ABC Support Tower Mini!

You have just acquired a luxurious Support Tower Mini which is used in combination with the Atman Buddhi Concentration (ABC) instruments. Various setups are possible with combinations of the ABC pyramids and ABC spheres which all have a high energetic effect. Please refer to your contact person for the different possibilities.

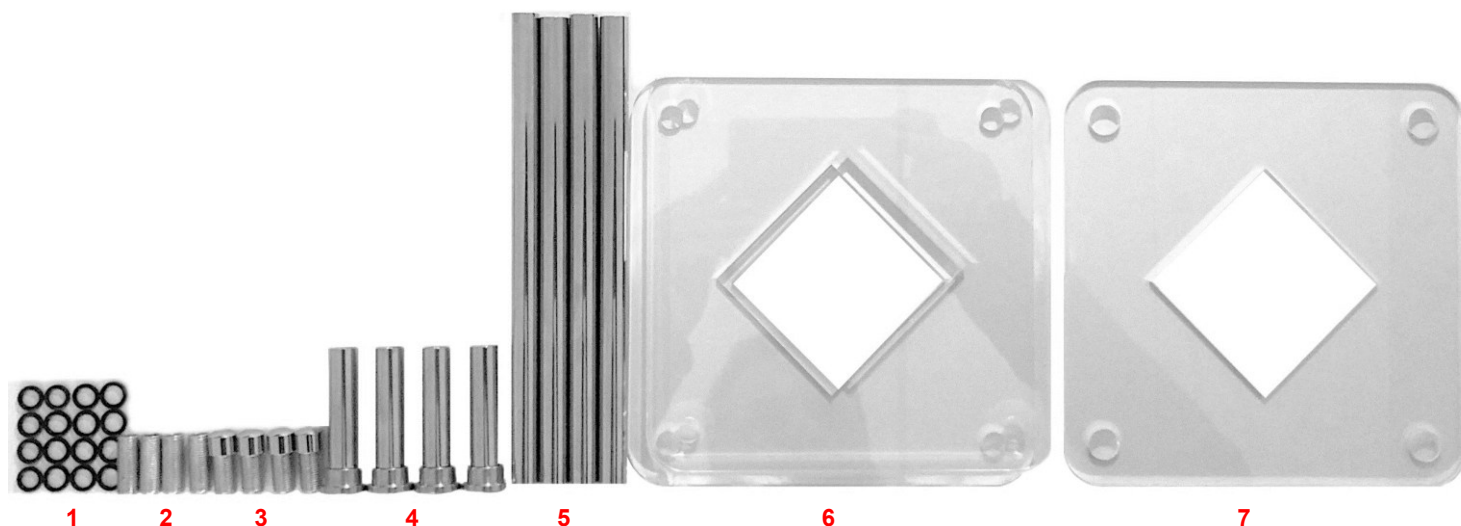

The Support Towers Mini are specially designed for usage in combination with the 10cm ABC pyramids and the 8, 10 and/or 12cm ABC spheres.

The ABC instruments are not included in the scope of delivery of the ABC Support Tower Mini and must be purchased separately.

## Scope of delivery

Depending on the setup, the ABC Support Tower is composed of a number of components. Below is an overview of the components as supplied for the different variants.

The numbers in the table below represent the number of components per type, the red numbers refer to the components in the image as shown below the table. These red numbers are also referred to in the installation instructions.

See picture number:	Rubber ring	Screw sleeve loose	End cap with screw sleeve	Chrome stand with base	Chrome stand extra long	Plateau with 4x hole small	Plateau with 4x hole big
	(1)	(2)	(3)	(4)	(5)	(6)	(7)
Description							
ABC Support Tower Mini	16	4	4	4	4	2	1
ABC Support Tower Xtreme	28	8	4	4	8	3	2

## 2. Installation order of chrome stands

The Support Towers are constructed from the bottom to the top, with the numbers representing in order of construction which stand is applied to which position in the Support Tower. The numbers correspond to the numbers shown with the photo on page 1.

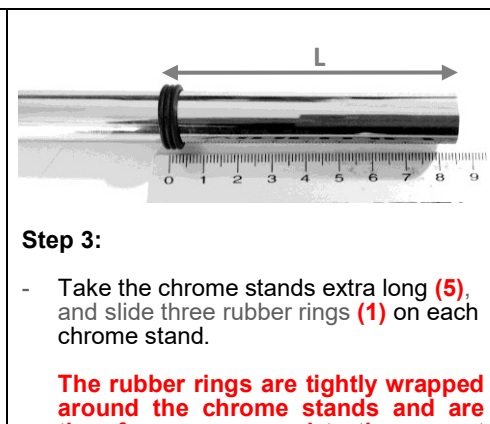

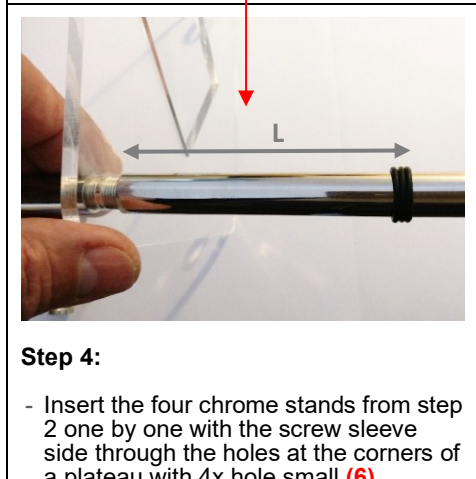

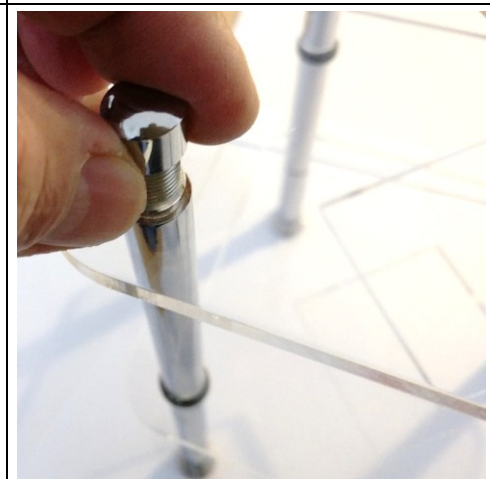

### Type:

ABC Support Tower Mini  
ABC Support Tower Mini Xtreme

### Installation order from bottom to top:

4x nr.4, 1x nr.6, 4x nr.5 with 12x nr.1 and 1x nr.7, 1x nr.6, 4x nr.3  
4x nr.4, 1x nr.6, 4x nr.5 with 12x nr.1 and 1x nr.7, 1x nr.6, 4x nr.5 with 12x nr.1 and 1x nr.7, 1x nr.6, 4x nr.3

### 3. Installation instruction

		 <p><b>Step 3:</b></p> <ul style="list-style-type: none"> <li>- Take the chrome stands extra long (5), and slide three rubber rings (1) on each chrome stand.</li> </ul> <p><b>The rubber rings are tightly wrapped around the chrome stands and are therefore maneuvered to the correct position by rolling each ring.</b></p> <ul style="list-style-type: none"> <li>- Distance from beginning to third rubber ring: For 08 and/or 10cm ABC-sphere: <math>L \sim 8.5\text{cm}^*</math> For 10 and/or 12cm ABC-sphere: <math>L \sim 7.5\text{cm}^*</math></li> </ul> <p><i>* Depending on the ABC instruments used, make sure the space is evenly distributed after installation.</i></p>
<p><b>Step 1:</b></p> <p>Remove the foil from both sides of the plateaus (6+7). Then place the plateaus on a soft surface so that they cannot be damaged.</p>	<p><b>Step 2:</b></p> <p>Screw four screw sleeves loos (2) a few turns into the screw side of the chrome stands with base* (4) until about 1.5cm of thread remains.</p> <p><i>* When repeating steps 2/3/4/5 for the Support Tower Mini Xtreme, the screw sleeves are screwed into the previous mounted "chrome stands extra long".</i></p>	
		
<p><b>Step 4:</b></p> <ul style="list-style-type: none"> <li>- Insert the four chrome stands from step 2 one by one with the screw sleeve side through the holes at the corners of a plateau with 4x hole small (6).</li> <li>- Then screw the chrome stands extra long on the screw sleeves in such a way that the distance to the rubber ring corresponds to step 3. Tighten the chrome stands securely.</li> </ul>	<p><b>Step 5:</b></p> <p>Take the plateau with 4x hole big (7) and slide it from the top over the chrome stands to the position where the plateau rests on the rubber rings.</p> <p><b>Repeat steps 2/3/4/5 until there are no chrome stands left.</b></p> <p><u>At the end there are four rubber rings left as spares!</u></p>	<p><b>Step 6:</b></p> <ul style="list-style-type: none"> <li>- Place the last plateau (6) on top of the setup.</li> <li>- Insert the four remaining end caps with screw sleeve (3) through the holes in the corners of the plateau and tighten them securely on the chrome stands.</li> <li>- Take a cloth and wipe any fingerprints from the chrome stands and the plateaus,</li> <li>- Next, place the ABC instruments from bottom to top. Slide the center plateau up when placing the bottom ABC instrument.</li> </ul>

**The installation was successful, have fun with your ABC Support Tower Mini!**

#### Important:

All Support Towers, due to their height and total weight, require a stable surface and free setup. Ensure that the setup cannot be accidentally knocked over to prevent personal injury or damage otherwise.

*Images in this instruction are examples only and will vary from your Support Tower depending on type as well as selected ABC instruments.*
